

OPTIONS

WIDE CONVERTER  
Wide Converter WL-37

A wider angle of image capture can be achieved by attaching the optional Wide Converter WL-37 to the VB-C50i/VC-C50i/VB-C10/VC-C4. This option is useful when the camera is installed too close to the area that requires monitoring.

- Lens magnification: 0.74x
- Expands field-of-view to 65°

For safety reasons, this optional item cannot be used with ceiling-mounted models.

EXPANSION BOX  
Multi Terminal Module VB-EX50

The Multi Terminal Module VB-EX50 enables connection of various types of external devices to the VB-C50i.

- Audio Out for speakers
- Video In/Out (BNC) for analog video cameras already in use
- External Sensor In/Out for sensors and alarms

REMOTE CONTROL  
Remote Control WL-V5

As an aid to installation procedures, a remote control is available as an optional accessory. One remote control can be used to input settings for several camera units (VC-C50i/VC-C4).

Some functions (such as shutter speed and noise reduction) cannot be accessed with the remote control.

DOMES

IRC1-P: Indoor Recessed Clear Dome

- Plenum rated metal top indoor recessed ceiling housing
- 7"Optically clear lower dome
- White decorative trim ring with quick-release pressure springs
- 24vac input for longer cable runs
- Power convert inside the housing to provide 12vdc to the camera
- Right angle power plug
- Mounting hardware for Canon cameras
- Feed through wiring for power, and Ethernet
- 40va plug-in 110vac to 24vac wall transformer included

IWC1-P: Indoor Wall Clear Dome

- Indoor dome housing that is UV protected, and a 94VO flame rating
- Wall mount, to allow the housing to attach to most vertical surfaces
- 24vac input for longer cable runs
- Power convert inside the housing to provide 12vdc to the camera
- Right angle power plug
- Mounting hardware for Canon cameras
- Feed through wiring for power, and Ethernet
- 40va plug-in 110vac to 24vac wall transformer is included with each housing

IPC1-P: Indoor Pendant Clear Dome

- Indoor dome housing that is UV protected, and a 94VO flame rating
- Pendant mount, 1 1/2" pipe thread
- 24vac input for longer cable runs
- Power convert inside the housing to provide 12vdc to the camera
- Right angle power plug
- Mounting hardware for Canon cameras
- Feed through wiring for power, and Ethernet
- 40va plug-in 110vac to 24vac wall transformer is included with each housing

OWC1-P: Outdoor Wall Clear Dome

- Outdoor dome housing that is UV protected, and a 94VO flame rating
- Wall mount, to allow the housing to attach to most vertical surfaces
- Heater and Blower to maintain a good operating environment for the camera (-20°F to +120°F)
- 24vac input for longer cable runs
- Power convert inside the housing to provide 12vdc to the camera
- Right angle power plug
- Mounting hardware for Canon cameras
- Feed through wiring for power, and Ethernet
- 40va plug-in 110vac to 24vac wall transformers is included with each housing

OPC1-P: Outdoor Pendant Clear Dome

- Outdoor dome housing that is UV protected, and a 94VO flame rating
- Pendant mount, 1 1/2" pipe thread
- Heater and Blower to maintain a good operating environment for the camera (-20°F to +120°F)
- 24vac input for longer cable runs
- Power convert inside the housing to provide 12vdc to the camera
- Right angle power plug
- Mounting hardware for Canon cameras
- Feed through wiring for power, and Ethernet
- 40va plug-in 110vac to 24vac wall transformers is included with each housing

OPCP1-P: Outdoor Pendant Clear Pressurized Dome

- Outdoor pressurized dome housing that is UV protected, and a 945VA flame rating
- Schrader Valve for nitrogen input
- 5-7psi pressure relief valve, to protect against or pressurization
- Hermetically sealed connector for incoming wiring
- Pendant mount, 1 1/2" pipe thread
- Heater and Blower to maintain a good operating environment for the camera (-40°F to +120°F)
- 24vac input for longer cable runs
- Power convert inside the housing to provide 12vdc to the camera
- Right angle power plug
- Mounting hardware for Canon cameras
- Feed through wiring for power, and Ethernet
- 100va, 110vac to 24vac transformer is included with each housing

# Canon WebView Livescope: You owe it to your business to find out more.

## What is Network Video Solutions?

**Transmit**  
Network Video Solutions is simply the transmission of high-quality video images through the Internet or a LAN connection. This may involve an individual viewing scenes from multiple locations, many individuals viewing a single location, or a combination of the two.

**Close the Distance**  
Network Video Solutions literally puts you, and/or the information you wish to broadcast, in several places at once. When physical distance ceases to be a barrier, the possibilities are limitless.

**Record**  
Anything that's transmitted can be recorded and stored to be viewed again at any time, a crucial factor in safety and security applications.

**Share**  
Network Video Solutions can accommodate multiple viewers and multiple image locations, linking people in a way no other technology can offer.

**Flexibility**  
Canon systems make installation, configuration and maintenance easy, so you'll be up and running quickly and worry-free.

**Save**  
Putting Canon's Network Video Solutions to work for you will boost the productivity of your business immediately, for cost and time savings that go straight to your bottom line.

## Why is Canon superior?

**Over 60 Years of Excellence**  
With over 60 years of industry-leading experience and a host of groundbreaking technical innovations to its credit, Canon richly deserves its reputation as maker of the world's most advanced cameras and photographic equipment.

**Legendary Optics**  
Canon lenses are the choice of professional photographers all over the world. They feature proprietary technology that delivers sharp resolution, high color fidelity, crisp, fast focus, and powerful, seamless zooming.

**High-resolution Images**  
Each camera features a CCD sensor built to Canon's exacting specifications, ensuring high-resolution images in a variety of motion patterns and lighting conditions.

**Ultimate Performance and Reliability**  
Canon's excellent reputation is a direct result of the high performance and reliability of its products. Canon's Network Video Solutions is designed to perform long term in demanding situations with minimal maintenance.

**One-stop Solution**  
From network-ready cameras to servers to software, Canon offers a complete, fully integrated system that's ready to go to work.

**A Name You Can Trust**  
Canon is a solid industry leader, earning the trust of millions for over 60 years. We are fully committed to the needs of our customers, today, tomorrow and well into the future.

## How can the system work for you?

**Medical Facility**  
Monitor multiple locations to provide the highest quality care and security in facilities where quick reactions are essential.

**Retail Store**  
Strategically located cameras can dramatically improve security and allow employees to provide more prompt customer service.

**Construction Site**  
Oversee security, safety practices and project status wherever you are. Ideal for client presentations as well.

**Museum or Gallery**  
Constant surveillance in multiple locations can reduce staffing requirements and give you greater peace of mind.

**Teleconferencing**  
Conduct high-quality meetings with colleagues and clients all over the world for unmatched convenience and substantial cost savings.

**Distance Learning**  
Broadcast lectures and classroom sessions to remote students. WebView's crisp images and superior camera control make students feel as if they're in the room.

**Tourism**  
Promote destinations and attractions with live views available to prospective visitors anywhere in the world.

**Traffic Reports**  
Newsrooms can monitor key sites to give accurate, real-time traffic reports.

Viewer for PC

# VB-C50i/VB-C50iR

- Genuine Canon 26x optical zoom lens with 12x digital zoom.
- Infrared Night Mode captures black and white images in the dark.
- 340K effective pixel CCD for smooth, high-quality video.
- Simultaneous image transmission in 3 viewer-selectable sizes with excellent resolution (30 fps at 640 x 480). IP monitoring for up to 50 clients.
- Auxiliary analog camera input (using optional VB-EX50).
- Automatic image capture with 15MB of internal memory for storing still images, activated by schedule, motion detection, or contact sensor.
- High-precision, viewer-controlled pan, tilt and zoom.
- Up to 20 preset viewing angles with scheduled auto touring.
- 4-zone motion detection with auto tracking of movement.
- Automatic and manual image adjustment controls.
- Optional Multi Terminal Module VB-EX50 for connecting external speakers, cameras, sensors and alarms.

### KEY FEATURES

#### Built-in Server for Ultimate Convenience

The built-in server supports many protocols for easy direct connection to both the Internet and LANs. Once connected, you're ready for a world of IP monitoring and webcast applications.

#### 26x Optical/12x Digital Zoom

The camera's 26x optical genuine Canon zoom lens with 12x digital zoom offers the highest optical zoom magnification in the industry,

making VB-C50i/VB-C50iR the perfect choice for monitoring large facilities.

#### Multi-streaming Capability

Viewers with slower connections or video-enabled cell phones may not want or be able to receive the camera's highest-quality video, given its larger file size. For customizable flexibility, the camera simultaneously broadcasts in 3 file sizes from which the viewer can select. The system can accommodate up to 50 clients.

#### Advanced Scheduling Functions

The camera's scheduling function allows you to specify when to record images or output signals to an external device, such as an alarm. You can schedule by week, date, time, motion-detection and more.

#### Sophisticated Motion Detection and Auto Tracking

Four areas can be selected for motion detection with the ability to set sensitivity, area ratio, and duration of detected movement. These settings can be independently set in each of the four areas. Auto tracking gives the camera the ability to pan and tilt once motion is detected, and capture this movement automatically.

#### High Resolution

You'll capture and transmit clear, well-focused video with excellent image quality: 30 frames-per-second, 640 x 480 pixels.

#### Create and View Panoramic Scenes

The camera's fast, vibration-free engine enables wide-ranging pan and tilt angles so you'll capture panoramic images.

#### Pan/Tilt/Zoom Viewing Restriction

The camera allows you to set restrictions on camera angles and zoom magnifications. This feature protects your privacy by preventing viewers from seeing particular areas.

### BUNDLED SOFTWARE

#### VB Administration Tools Version 2.0

- Panorama Creation Tool
- View Restriction Tool
- Preset Setting Tool
- Schedule Setting Tool
- Admin/Log Viewer

#### VB Collector Software Version 2.0

### NOMENCLATURE

VB-C10

1. DC In Terminal
2. Sensor Input/Relay Output
3. 10/100 Base T Ethernet Terminal

VC-C50i/VC-C50iR

- Genuine Canon 26x optical zoom lens with 12x digital zoom.
- Slow shutter speed for clear color video in very low light.
- Infrared mode with infrared light up to 9.8 ft. captures black and white images in the dark.
- 340K effective pixel CCD for smooth, high-quality video.
- Viewer-controlled pan, tilt and zoom.
- Cascade function to connect up to 9 cameras to a single PC or up to 4 cameras to a VB150 server.
- Automatic and manual image adjustment controls.
- Multi-connector for simple system configuration accommodates alarm trigger, external IR light.

KEY FEATURES

**Excellent Low-light Performance**  
The camera will capture clear color images in dim lighting all the way down to a single lux thanks to a highly-sensitive CCD, bright lens and slow shutter capability. Images are further enhanced with automatic noise reduction in both bright and dim light.

**Night Imaging with Infrared Light**  
A Night Mode with built-in infrared light allows the camera to capture clear black and white images even in complete darkness. An additional external infrared light can also be connected.

**Flexible Image Adjustment Controls**  
Canon's decades of photographic expertise give the camera a high degree of imaging control: automatic and manual exposure control, manual focusing, noise reduction,

backlight compensation, white balance and more.

**Multi-connector Simplifies System Set-up**  
The camera is easily adaptable to custom system configurations thanks to a new multi-connector interface. External devices including alarm sensors, infrared lamps and more connect with just one plug.

SERVER COMPATIBILITY

VB150

NOMENCLATURE

VC-C50i

1. DC in Terminal
2. Video Out Terminal
3. Multi-terminal

VC-C4/VC-C4R

- Genuine Canon 16x optical zoom lens.
- 410K effective pixel CCD for smooth, high-quality video.
- Viewer-controlled pan, tilt and zoom.
- Cascade function to connect up to 9 cameras to a single PC or up to 4 cameras to a VB150 server.
- Compact and light: weighs less than a pound.
- Includes remote control.

KEY FEATURES

**Connect up to 9 Cameras**  
Operate up to 9 cameras in a daisy chain from your PC (via RS-232 with custom programming) or the Canon VB101/VB150 controller.

**Control Pan, Tilt and Zoom**  
A wide range of on-screen controls, and a precision mechanism that minimizes shaking and vibration make it easy to adjust pan, tilt and zoom to the exact view you need.

SERVER COMPATIBILITY

VC-C4

1. DC In Terminal
2. S-Video Out Terminal
3. Composite Video Out Terminal
4. RS-232C Out Terminal
5. RS-232C In Terminal

VB150/VB101

- Connect up to 4 cameras.
- Capture video up to 30 frames-per-second.
- Web server built-in, no computer necessary.
- Built-in motion detection (VB150).
- Automatic image capture and storage, either scheduled or motion activated (VB150).
- Adjustable video quality and frame rates.
- Simultaneous viewing for up to 50 clients (VB150) or 40 clients (VB101).
- Create panoramas from sequential images.
- Create and host high-impact web pages.
- Expandable with PCMCIA card slots.
- Wireless-capable (802.11b) with wireless LAN card (VB150).

KEY FEATURES

**Connect up to 4 Cameras**  
The servers can connect to and control up to 4 Canon VC-C50i, VC-C50iR, VC-C4, VC-C4R and a variety of compatible generic analog cameras. With Canon's WebView Livescope MV 2.1 or 2.1 LE software, up to 4 live camera views can be

simultaneously displayed on one screen for superior security monitoring.

\* MV 2.1 & MV 2.1 LE used only on VB150 for 4 line camera views.

**High-quality, Adjustable Images and Frame Rate**  
The servers capture high-quality video of up to 30 frames-per-second in motion-JPEG format. Video quality and frame rate can be freely adjusted to suit the needs of viewers and the network environment.

**Create and Host Interactive Web Pages**  
Store web page content on a flash memory card to transmit high-impact, interactive content over the web any time. Gives an immediate boost to your site's professionalism and your viewers' excitement.

Viewer for Java

**PCMCIA Card Slots for Expandability**  
2 built-in PCMCIA card slots allow you to attach a dial-up modem card or flash memory card. Captured images can be saved and then forwarded to preset e-mail addresses.

BUNDLED SOFTWARE

**VB Administration Tools Version 1.2**  
• Panorama Creation Tool  
• View Restriction Tool  
• Preset Setting Tool  
• Admin/Log Viewer

**Built-in Motion Detection**  
When the server detects motion, it can capture pictures, send data to control external devices, or record data in a log. Use the supplied software to set numerous parameters including detection area, sensitivity, duration and area ratio.

**VB Collector Software Version 2.0**  
• Schedule-based download of captured images  
• Automatic downloading when the upper limit of the camera's memory is reached  
• Downloaded images can be viewed on a Web browser  
• New image viewer offers animated playback of captured images

Network Video Recording Software  
**VK-64 v1.0**

This highly flexible, easy to run program provides a comprehensive solution for all video monitoring and recording needs. Ideal for large-scale locations with multiple cameras, multi-site businesses, and any business in need of data custody at remote locations.

- Remote monitoring and remote recording.
- Record up to 64 camera servers with a single storage server.
- Easily install a new camera or change a camera’s location.
- Access for up to 5 clients at a time.
- Quickly create a custom layout for your viewing screen.
- Control camera positions and zoom while monitoring live video.
- Extensive recording mode settings available to each camera.
- Easy event search and playback.
- Play live or recorded video in up to 24 windows simultaneously.
- QuickTime™ file conversion lets you send recorded video to anyone via email.
- Supports VB-C10/VB-C10R, VB-C50i/VB-C50iR\*, VB150 and VB101.

\* Not all features are available at this time.

Server Capacity / Traffic / Data Size

Number of cameras	Image size	Frame size	Network traffic		Storage volume	
			frame/sec	Traffic volume	1 day	1 month
1 camera	320 x 240	10KB	1 fps	80 kbps	0.9GB	25.9GB
			5 fps	400 kbps	4.3GB	129.6GB
	640 x 480	40KB	1 fps	320 kbps	3.5GB	103.7GB
			5 fps	1.6 Mbps	17.3GB	518.4GB
10 cameras	320 x 240	10KB	1 fps	800 kbps	8.6GB	259.2GB
			5 fps	5 Mbps	43.2GB	1,296.0GB
	640 x 480	40KB	1 fps	3.2 Mbps	34.6GB	1,036.8GB
			5 fps	16 Mbps	172.8GB	5,184.0GB

**Remote Monitoring and Recording**  
Using an IP network, you can record video captured from a camera server. This remote data custody can serve as a crucial back up in the event of fire or other damage in the server location.

**Record up to 64 Camera Servers**  
The program can record video from up to 64 cameras simultaneously from a single storage server. Further, it can manage 3 storage servers with a single viewer, allowing you to manage recorded video from a total of 192 cameras.

**Event Search and Easy Playback**  
The software makes it easy to find an event you’re looking for. Search by event type, location, date and time, time code or scroll through the Viewer Timeline to find and select the event you want. Then, simply double-click the event from the Live Event Window to playback the requested event.

**Camera Control in Real Time**  
Experience interactive monitoring of live video by controlling the position and zoom of VB-C50i and VC-C50i cameras connected to a VB150 server. Presets are also available.

**Individualized Recording Mode Settings**  
The software allows unparalleled flexibility in recording, with a wide range of options available to each individual camera. There is a mode to meet every need, including continuous recording, recording triggered by a sensor event at night, pre- and post-event recording, as well as motion detection.

**Simultaneously Display Up to 24 Windows**  
View live or recorded action at the same time in up to 24 windows per template\*. For instance, a retail storeowner could simultaneously view the identical scene shot at various times of day to create a timeline analysis of store traffic. Even customize your viewing screen by adjusting the number, size and layout of video windows.  
\*Multiple templates can be created.

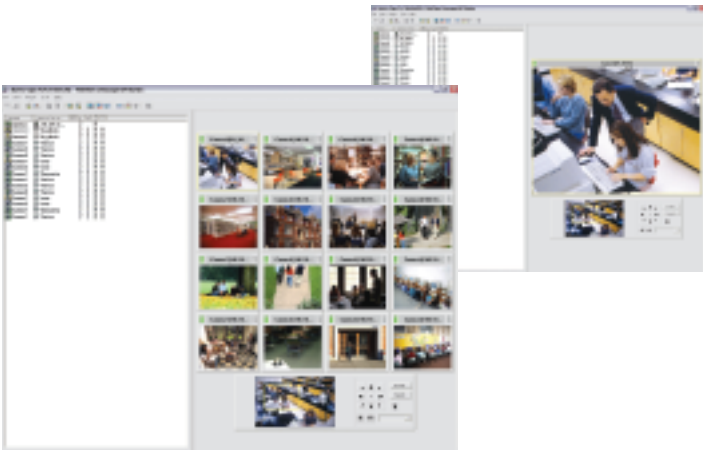

XGA 24 screen

XGA 6 screen

**Convert Recorded Video to QuickTime™**  
The software makes it simple to convert up to an hour of recorded video into a QuickTime™ file, allowing you to email a viewable video file to recipients.

Multi-Screen Monitoring Software  
**WebView**  
**LivescopeMV Ver. 2.1**

- Simultaneously monitor up to 16 locations on a single screen.
- VB ImageBrowser for seamless image management and display.
- Communicate with external devices.
- Supports advanced VB150 features.
- Create custom monitoring screens.
- Enjoy flexible monitoring settings.
- Monitor from multiple sites.
- Add new camera servers quickly and easily.

Simple Monitoring Software  
**WebView**  
**LivescopeMV Ver. 2.1 LE**

- Simultaneously monitor up to 4 locations on a single screen.
- Panoramic Viewing Image Function.
- Add new camera servers quickly and easily.

**Monitor up to 4 Locations at Once**  
Watch live video from up to 4 cameras simultaneously. Control camera pan, tilt and zoom functions right on the screen.

**Easy Camera Server Registration**  
A built-in search feature automatically locates camera servers on the same network for quick and easy registration.

**Simultaneously Monitor up to 16 Locations**  
View images from 16 cameras per screen\*, with automatic camera position changes and camera server information available on screen. Choose your own layout, and switch between displays automatically.  
\* Multiple screens can be created.

**Communicate with External Devices**  
When a connected external device (such as a window alarm sensor) is triggered, you’ll hear or see an alert of your choosing on the screen.

**Seamless Image Management and Display**  
Capturing, viewing and saving images have never been easier. VB ImageBrowser allows you to download still images from the camera server, compare and

display differences between consecutive images, view all images as thumbnails, and more. Animated replays and electronic zoom are also available.

**Create Custom Monitoring Screens**  
A Monitoring Screen Wizard lets you choose from a wide variety of screen templates to find one that’s perfect for your needs.

**Flexible Monitoring Settings**  
The program features 3 convenient modes: • Video Relay moves between video and still images when multiple cameras are connected to a single server. • Automatic Rotation gives you a “tour” of up to 8 preset locations. • Autoswitch automatically switches the display between cameras and camera servers.

**Monitor from Multiple Sites**  
Place the monitoring screen you created in a common directory location, and it can be viewed by multiple stations running the MV software.

PocketPC Software  
**WebView**  
**Livescope**

Access and control your network cameras right from your PDA! Supports a wide variety of Pocket PC based PDAs. Available in a single or 5-license pack.

Free Viewer Software

**Viewer for Java**  
Allows video from the VB150, VB101, VB-C10 or VB-C50i to be displayed on a standard web browser. This software is automatically downloaded.

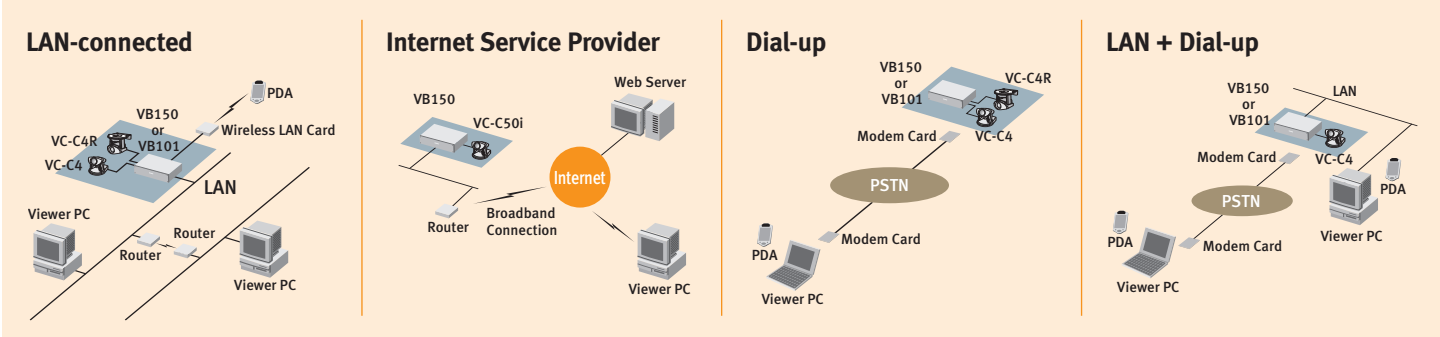

**Viewer for PC**  
Offers faster start-up and a higher video frame rate. Installable for frequent viewers.

Weight	1.37 lbs. (620g)/1.54 lbs. (700g)	1.42 lbs. (645g)/1.6 lbs. (730g)
Power Supply	AC adapter (included) DC13V (11.5-14V)	
Power Consumption	9.7W or less	25W or less

COMMUNICATION CAMERA

	VC-C50i / VC-C50iR	VC-C4 / VC-C4R
Image Sensor	680K pixels (340K effective)	410K pixels (380K effective)
Zoom	26x optical/12x digital	16x optical
Minimum Object Illumination	1 lux (1/30 shutter speed)	6 lux (2 lux at gain-up mode)
Pan Angle Range	+/-100° (Standard)/+/-170° (Reverse)	
Tilt Angle Range	+90°/-30° (Standard)/+10°/-90° (Reverse)	
Video Standard	NTSC	
TV-Line	420 TV L	460 TV L
SNR	48 dB	
Horizontal Field-of-View	3 to 47.5 degrees (65 degrees with wide angle lens adapter)	
White Balance	Auto	
Exposure	Auto/Manual	
Focus	Auto/Manual	
Focus Length	3.5 to 91mm, f/1.6 to 4.0	4 to 64mm, f/1.4 to 2.8
Pan Speed	1 to 90 degrees/sec	
Tilt Speed	1 to 70 degrees/sec	
Menu Mode by Super Impose	Camera setting, Display setting, etc.	
Camera Angle Presets	9 positions	
Controllable # by One IR	9 units	
Cascade Control	9 units	
Control	RS232 serial, RTS/CTS has to be active (Up to 19.2Kbps)	
Operating Environment	F:32-104 degrees (C:0-40) 20-85% RH (non-condensing)	
Dimension (W x D x H) (excluding attachments)	39 x 46 x 38 in. (100 x 117 x 96mm)	39 x 44 x 35 in. (100 x 112 x 89.5mm)
Weight	14.8 oz (420g)/17.3 oz (490g)	13.2 oz (375g)/15.3 oz (435g)
Power Supply	AC adapter (included) DC13V (11.5-14V)	
Power Consumption	12.5W or less	12W or less

NETWORK CAMERA SERVER

	VB101	VB150
OS	DRYOS (Canon Realtime OS)	
Protocol	TCP/IP, HTTP, BOOTP, FTP, SMTP	
Image Compression	Compression Technique Motion-JPEG (Image quality range 1-99), JPEG (for still images)	
Image Compression Rate	0.1-30 fps (variable)	
Video Capture Sizes	160 x 120, 320 x 240, 640 x 480	
Server Functions	WWW, FTP	
Log Management	Syslog (mail, ftp, flash memory recording possible)	
Camera Control	Pan, tilt, zoom, brightness, shutter speed etc.	
Operations		
Network Operations	Access restriction (password/host), video connection time.	
Image Storage	Flash memory card (optional)	
Simultaneous Client Access	40 (max.)	50 (max.)
Image Input	4 Inputs (BNC x 1, RCA x 2, NTSC/PAL)	
Serial Ports	RS-232C x 3 (mini DIN 8, for camera use x 2, for initial setting x 1)	RS-232C x 2 (mini DIN 8, for camera use)
Networking	Ethernet x 1 (RJ45, 10 Base T/100 Base TX auto-negotiation)	Ethernet x 1 (RJ45, 10 Base T/100 Base TX auto-negotiation, wireless LAN (1 PC card slot used))
Expansion Slots	PCMCIA Type II (5V) x 2	PCMCIA Type II (3.3V/5V) x 2
Display LEDs	Power On/Off, network status, PCMCIA status display	
Operating Environment	F:32-104 degrees (C:0-40) 20-85% RH (non-condensing)	
Dimension (W x D x H) (excluding attachments)	98 x 65 x 20 in. (248 x 165 x 52mm)	98 x 66 x 20 in. (248 x 167 x 52mm)
Weight	2.86 lbs. (1.3Kg)	
Power Supply	AC adapter (included) DC13V (11.5-14V)	
Power Consumption	25W or less	17W or less

SYSTEM REQUIREMENTS

Network Video Recording Software VK-64

**Viewer System Requirements**  
CPU: Pentium III 700 MHz or greater (Pentium 4 2.2 GHz or greater recommended)  
Operating System: Windows 2000 Server (service pack 3)/Windows 2000 Professional (service pack 3)/Windows XP Professional (recommended)  
Memory: 256MB RAM (1GB RAM or greater recommended)  
\*For more than 16 Camera Servers, 1GB or greater required.  
Hard Disk: 2GB HDD or better  
Display: 1,024 x 768 with 16 bit color display or better  
\*A high performance video card is desirable. With PCI video cards, display may be reduced.  
Sound: Audio playback support is necessary for event notification alert sounds.

**Storage Server System Requirements**  
CPU: Pentium III 1 GHz or greater (Pentium 4 2.2 GHz or greater recommended)  
Operating System: Windows 2000 Server (service pack 3)/Windows 2000 Professional (service pack 3)/Windows XP Professional (recommended)  
Memory: 768MB RAM (1GB RAM or better recommended)  
\*For more than 48 Camera Servers, 1.5GB or better required.  
Hard Disk: 20GB HDD or better, SCSI or IDE, NTFS formatted

WebView Livescope MV 2.1 Manager

CPU: Pentium III 600 MHz or greater  
Operating System: Windows Me/Windows 2000 (service pack 1.0, 2.0, 3.0) /Windows XP  
Web Browser: Internet Explorer 5.0, 5.01, 5.01 (service pack 1, 2) 5.5, 5.5 (service pack 1, 2) 6.0, 6.0 (service pack 1)  
Memory: 128MB or better  
Hard Disk: Available space of 50MB or better  
Monitor: XGA (1,024 x 768) or better with 16-bit color display or better

WebView Livescope MV 2.1 Station

CPU: Pentium III 600 MHz or greater  
Operating System: Windows Me/Windows 2000 (service pack 1.0, 2.0, 3.0) /Windows XP  
Web Browser: Internet Explorer 5.0, 5.01, 5.01 (service pack 1, 2) 5.5, 5.5 (service pack 1, 2) 6.0, 6.0 (service pack 1)  
Memory: 128MB or better  
Hard Disk: Available space of 50MB or better  
Monitor: SVGA (800 x 600) or better with 16-bit color display or better

WebView Livescope MV 2.1 LE

CPU: Pentium III 600 MHz or greater  
Operating System: Windows Me/Windows 2000 (service pack 1) /Windows XP  
Web Browser: Internet Explorer 5.0, 5.01, 5.01 (service pack 1, 2) 5.5, 5.5 (service pack 1, 2) 6.0, 6.0 (service pack 1)  
RAM: 128MB or better  
Hard Disk: Available space of 20MB or better  
Display: XGA (1,024 x 768) or better with 16-bit color display or better

Viewer for PC

Operating System: Windows 2000 (service pack 4)  
Web Browser: • Microsoft Internet Explorer 6.0 (service pack 1)  
• Netscape Navigator or Communicator 7.1  
\* Must be installed in advance from the CD-ROM supplied with the camera server.

Viewer for Pocket PC

Operating System: Microsoft Pocket PC 2002 Software

COMPARISON CHART OF VIEWER SOFTWARE

	Network Video Recording Software VK-64	WebView LiveScope MV 2.1*	WebView LiveScope MV 2.1 LE	Viewer for PC	Viewer for Pocket PC
Maximum Number of Servers	64	100	4	1	1
Maximum Number of Cameras per Screen	24/XGA-35/SXGA	16/template, unlimited templates	4	1	1
